

Field day-cum-training programme on "धान - गेहूँ - मूँग फसल चक्र में 'जीरो टिलेज': एक कारगर एवं लाभदायक तकनीक " organized

One day Field day-cum-training programme on "धान - गेहूँ - मूँग फसल चक्र में 'जीरो टिलेज': एक कारगर एवं लाभदायक तकनीक" was organized by ICAR-Research Complex for Eastern Region (ICAR-RCER), Patna under the project "Scaling up Climate Smart Agriculture through Mainstreaming Climate-Smart Villages in Bihar" on 17th October 2020 at two villages namely Chandasi and Charuipar of Noorsarai block in Nalanda district. Near about 50 farmers participated from each village in this programme. During this programme farmers were apprised about the zero tillage cultivation in rice-wheat-mungbean cropping system as a resource conservation technology. Scientists from ICAR-RCER, Patna namely Dr. Abhay Kumar, Mrs. Manisha Tamta and Dr. Nongmaithem Raju Singh briefed the farmers on benefits of adopting zero tillage cultivation practice and its importance in the wake of changing climate. Scientists also answered all the queries of farmers related to zero tillage technology and distributed extension folders on zero tillage technology in rice and wheat to the participating farmer. At the end farmers using this technology under the project shared their valuable experiences and feedbacks.
