

Three days training programme on “Recent Advances in Composite Fish Farming.”

3rd- 5th February 2021

The ICAR-Research Complex for Eastern Region (ICAR-RCER), Patna organised a three-day training programme on “*Recent Advances in Composite Fish Farming*” for the farmers of the Koshi region 3rd-5th February, 2021. It was sponsored by the ‘*Bihar Koshi Basin Development Project*’ (BKDBP), Govt. of Bihar. The inaugural function was graced by the

chief guest Prof. R. K. Trivedi, Director of Student Welfare, Bihar Animal Sciences University, and Dr. Kamal Sarma, Course Director, all the Heads of Divisions, Scientist, technical staffs of this institute. The training's main motive was to develop skills and awareness among the farmers about composite fish farming. A total 34 farmers participated and provided hands-on training on different aspects of fish culture like Fish farm designing, pond management practices, water quality management, selection & identification of suitable fish species, seed quality and stocking management, and nutritional feeding practice well as different schemes of central-state govt. The valedictory function was graced by the Chief Guest, Mr Suman Kumar, Dy. Director of Fisheries, Govt. of Bihar and Dr. Ujjwal Kumar, Director ICAR-RCER, Patna. Dr. Ujjwal Kumar encouraged the farmers to adopt the best-suited technologies of fish farming and spread that to other farmers; Mr. Suman Kumar talked about the

different schemes and initiatives taken by the Govt for popularizing and augment of fish production. During the programme, the participants have expressed their satisfaction with the training programme and showed confidence in establishing a Fish Farming model for their future endeavours. The certificates were distributed among the participants and the training programme was ended with a vote of thanks.
